

# Carlos Somoza

## Software Developer

### PROFILE

Passionate Systems Engineering student and dedicated Full Stack Developer, seamlessly integrating theoretical knowledge with hands-on experience in pivotal customer projects. Eager to contribute my skills and innovation to a distinguished company that values excellence and fosters professional growth. Ready to bring a dynamic blend of academic expertise and practical application to drive success in challenging and impactful projects.

### EXPERIENCE

#### SOFTWARE DEVELOPER | GAOTEK

- 2023

As an accomplished Systems Engineering student, I actively engage in the dynamic realm of Full Stack Development within critical customer projects. Currently seeking an internship opportunity with a renowned company, where I can apply and enhance my skills while contributing to impactful initiatives. Excited to bring a fusion of academic prowess and practical experience to a forward-thinking organization committed to excellence.

#### SOFTWARE DEVELOPER JR | FREELANCER

- 2022 - 2024

I sustain my livelihood by delivering professional services, catering to clients who reach out to me for expert assistance with technical issues related to their operating systems. In addition to resolving problems, I extend my expertise to support fellow students pursuing the same career. I offer comprehensive tutoring and guidance, facilitating a deeper understanding of intricate concepts through the implementation of advanced yet accessible projects.
